

"The Postman's Reign"

Feature by Jan Wilson

"The Postman's Reign" is a darkly romantic psychological thriller set in present day London.

The last thing you want is a special delivery from Milo.

Milo is your friendly neighborhood postman -- with an unhealthy interest in your mail...and your life. Milo, a shy yet vengeful postman, manipulates his control over the mail to win the love of a woman on his route. Along the way he secretly distributes rewards and punishments to the neighborhood residents based on their behavior and his skewed sense of justice. Milo rules his kingdom of southeast London, and the residents are his unknowing subjects.

Think of Milo as a darker cousin of Amelie" crossed with Travis Bickle from "Taxi Driver" with a streak of a lovesick Romeo.
